Back to School means CPI CarePacks for Kids!

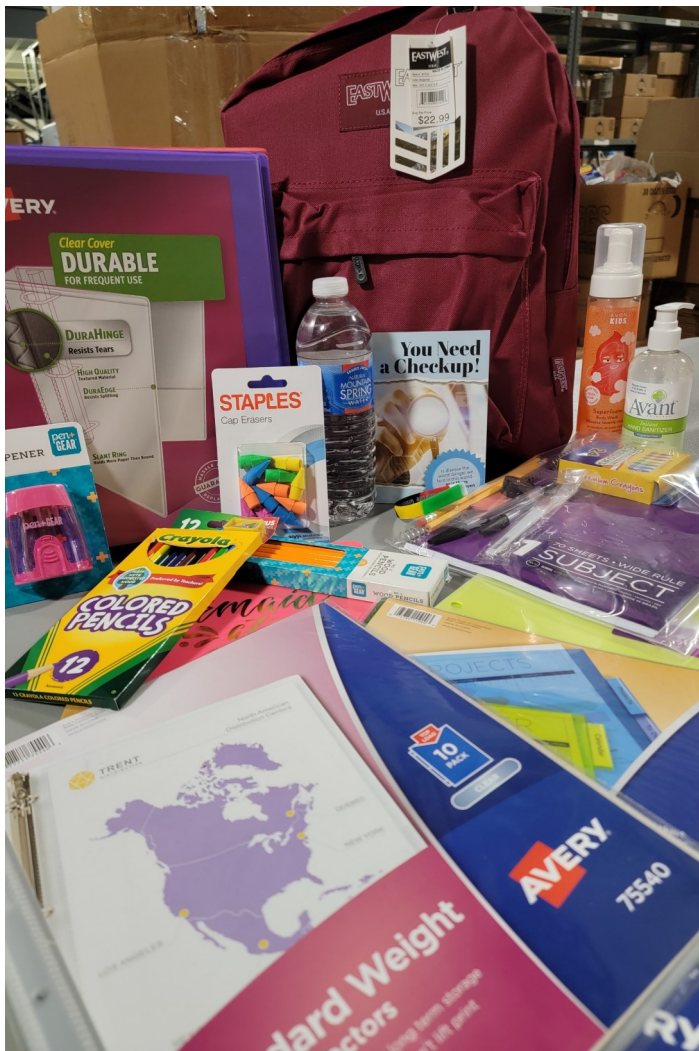

CPI's mission is to help churches around the world reach people for Jesus Christ through meeting both physical and spiritual needs. **The Covid crisis has created a lot of physical needs here in the USA, and personal care materials & school supplies for kids is one of those big needs.**

Praise God, our ministry has received a lot of PPE products that a lot of back-to-school kids are lacking - wet wipes, hand sanitizer, facial tissues, and masks. CPI was also blessed with some wonderful donations of Avery school supplies - binders, notebooks, and dividers. Put the two together into quality, colorful backpacks for kids, and you get one of CPI's most rewarding mission outreaches - **CarePacks for Kids!**

Several of our church partners in southern Ohio received free backpacks from CPI to distribute within their churches and their communities. Each backpack included a pamphlet & bracelet which clearly explained the Gospel message - pray with us that this outreach will impact young lives for Jesus Christ!
